STENCILS

SILK GLAMOR STENCILS

Paint your imagination in any colour you like and then choose from a select range of stencils which add another dimension to your space.

The history of stencils dates back to 105 AD. The Chinese were the first to develop a paper-based stencil. As the art form continues to evolve, Berger Silk Glamor has developed new techniques, applications and artistic possibilities for stencil decoration. Stencils like Feather Touch and Chakra Charm add more glamour to your stunning coloured walls.

SILK GLAMOR STENCILS

Spinning Stars

The world moves in circles. But it doesn't have to be monotonous. This design is inspired by the ancient Japanese Shuriken which are like pointed stars that used to spin beautifully to form a chakra like pattern. A sense of motion is brought alive through this stencil and it would be a beautiful source of drive and inspiration every morning on your sun-kissed walls.
